Our Story

Company Pan Logistic was founded year 2005 and basic domain of the company is transport of different kinds of goods in Serbia as well as abroad.

The company is engaged in the international transport of goods. We cover the whole Europe and all by ISO standards, with business references in the car industry, wich is one of our core business, the general industry palletized products and the frigo transportation of frozen food and goods.

The Fleet

We operate with cca 50 vehicles.

- Big trucks curtainsiders 1-5 year old
- Frigo trucks 1-3 year old
- Avia 7.5t small trucks 3 year old
- Van vehicles 2-4 year old

Equipped with Global Positioning System (GPS) technology and real-time data reporting system for flawless and efficient logistic management.

SERVICES

ROAD TRANSPORT

It includes all activities related to the transportation of cargo by road:

- transportation of cargo under temperature regimes
- transportation of heavy cargo
- transportation of bulk/palletized cargo
- transportation of cars – card industry

- transportation of waste and waste materials, without collection and disposal
- transportation of dangerous goods (ADR), vehicles type tarpaulin / frigo / thermo
- also we provide moving services.

AND MORE...

- forwarding business
- organization of road
- organization of group and individual shipments (including collection and delivery, as well as grouping of shipments LTL/FTL options)
- issuing and obtaining transport documents.

Dims
13.6 x 2.45 x 2.65 m
Weight Capacity
22 T

Avia

Dims
6.5 x 2.48 x 2.55 m
Weight Capacity
3.5 T

Vans

Dims
4.4 x 2.2 x 2.3 m
Weight Capacity
1 T

Big Truck

The curtainsider model transport vehicle.

Frigo Truck

The vehicle is for the transport of goods that require a temperature regime.

The Thermo King has a temperature range capability of -30C to +40C.

Small Truck (Avia)

These vehicles have tachograph devices. Their load capacity is 3500 kg.

This type of vehicle is suitable for transporting small amounts of cargo.

The capacity of this vehicle is 16 ep.

Van

The smallest type of transport vehicle in Pan Logistic company. Their load capacity ranges from 900 kg to 1100 kg.

VANS do not have a tachograph, therefore they represent a faster/more efficient type of road transport vehicle compared to other types of vehicles with a tachograph.

Licences and Certificates

The Panlogistic company operate under the ISO 9001 standard certification, ADR and the FRC. Our fleet and staff, vehicles and drivers are permitted with CEMT and bilateral driving licences. All drivers own green certificates of Covid 19, which enables us to have smooth transit and transport through most European countries.

CH & UK - We strive for most of our drivers to have visas for the mentioned countries, for the sake of greater coverage of Europe and productivity.

Logistically Yours!

We are able to offer you cheap, safe and fast transports, import - export services for all your needs. We have our own trucks, which enables fast and reliable transportation of goods.
